WOMEN'S CLUBS TO RESUME MEETINGS

TWO WILL ASSEMBLE TUESDAY AFTERNOON

A CLUB HOUSE PROPOSED

P. E. O. To Have First Meeting September 23—Largest Twentieth Century Board

Two of the women's literary clubs will resume meetings next Tuesday afternoon after the summer vacation. Maryville's oldest club, the Mutual Improvement Circle, will open the season with a 1 o'clock luncheon, and its largest organization, the Twentieth Century Club, will open the season with a lawn fete. The opening meeting of the P. E. O. Chapter will be held September 23.

To live content with small means;
to seek elegance rather than luxury,
and refinement rather than fashion;
to bear all cheerfully, do all bravely;
to listen to stars and birds, to babes
and sages, with open heart; to study hard;
think quietly, act frankly, talk gently,
await occasions, hurry never; in a word,
to let the spiritual, unbidden and unconscious grow up through the common—
this is to be my symphony.

The above symphony by William Ellery Channing has been the motto of the Twentieth Century Club since its organization and appears again this year in the new program book.

Members of the Club will reassemble next Tuesday afternoon at the home of Mrs. Charles T. Bell on West Third Street. The meeting will be in the nature of a garden party and punch will be served on the porch by Mrs. Harry Todd, Mrs. D. J. Thomas, Mrs. J. C. Allender and Mrs. E. C. Curfman In the receiving line with Mrs. Bell will be Mrs. D. R. Baker, club president; Mrs. C. F. Remus, first vice president, and Mrs. C. E. Stilwell, second vice president. These committees have been appointed for the afternoon: Decorative, Mrs. M. A. Peery, Mrs. Bert Loomis and Mrs. Fred Curfman; entertainment, Mrs. C. C. Hellmers, Mrs. S. P. Allison, Mrs. H. R. Juvenal and Mrs. J. R. Lowry; refreshment, Mrs. C. F. Remus, Mrs. A. A. Brewer, Mrs. W. C. Pierce and Mrs. R. E. Snodgrass; distribution of year books, Mrs. H. Wilfred White and Mrs. E. G. Orear. A report of the biennial convention of the General Federation which was held last June in Chautauqua, N. Y., will be read by Mrs. C. C. Leeson.

The club starts its seventeenth year with one hundred and eight active members, three associate members and two honorary members. Mrs. Dan R. Baker heads the club, with other officers as follows: first vice president, Mrs. C. F. Remus; second vice president, Mrs. C. E. Stilwell; recording secretary, Mrs. H. Wilfred White; corresponding secretary, Mrs. J. F. Hull; treasurer, Mrs. Fred Curfman; custodian, Mrs. C. C. Leeson; auditor, Mrs. C. D. Bellows; and historian, Mrs. R. L. McDougal. The executive board will consist of twenty-five members, the largest number in the history of the club. A new standing committee has been added this year, that of budget, which is composed of Mrs. C. C. Hellmers, Mrs. C. D. Bellows and Mrs. D. R. Baker. The object of the new corps of officers is to secure a club house for Maryville and every effort will be directed toward this end. The club is represented on the official staff of the first district federation, the office of secretary being filled by Mrs. C. C. Hellmers. Three luncheons have been scheduled for the year and there will be an open session of each department. On the fly leaf of the program books is the following anonymous poem on "Why We Federate:"

A raindrop fell upon a flower,
And bade it rise and live;
Alas, the drop was very small
And little had to give.

But when a million drops came down
In warm, refreshing shower
How great the change, the dropping plant
Upheld a perfect flower.

"In union, strength," the motto runs,
A truth so often told;
If true for men it must be well
For womankind to hold.

One woman weak, one club alone,
Can bring no great reform,
But when a thousand women work
They take the world by storm.

So this is why we federate,
A thousand's more than one,
We'll do the deeds for God and home
The men have left undone.

"See how we've helped our women grow,"
They'll boast in accents bold
While we will smile and let them still
That sweet delusion hold.

Sent to Captain Maynor by Champ Pickens—May Be Named "Tammany"

The dog was sent by Champ Pickens of St. Louis who attended West Point the same time Capt. Maynor was there.

Mr. Pickens suggested the dog should be called "Tammany," probably on account of the Tammany organization in New York winning so many victories in political contests.

Mr. Pickens also sent a dog to Derrill Pratt, now with the Boston Red Sox, who was formerly second baseman for the St. Louis Browns. Pickens was a football star of Princeton of the year 1904.

FAITH A CURE FOR ALL ILLS--GREENE

IF WE HAVE IT MIND WILL BE OCCUPIED

AFFECT THOSE ABOUT

Judge Tells story regarding what He Did for a Street Car Conductor By Right Attitude

The world is controlled by mind and not by a system of levers. And so it is with the human body. We are as we think and those about us are as we think of them. When Jesus did his healing he did not think of a poor, emaciated individual. He thought of a man or woman well and strong. And he made men and women well and strong.

These are some of the things set forth by Judge Samuel W. Greene in his Christian Science lecture at the Empire Theater last night.

Judge Greene believes that by keeping the right thoughts in the minds of all people all the troubles of the individual and the world could be cured. There is simply no room in the mind of man for a belief that anything is wrong, if he believes strong enough in God. A man who was ill went to a Christian Science practitioner and said that he was ill and that he wanted treatment. The practitioner asked what the trouble was and the man told him.

"You have no faith in God," said the practitioner.

"I certainly have," replied the man.

"No," said the practitioner, "you have not. If you did have that faith would be so great that it would occupy all your mind and there would be no room for thought of being ill."

The man went away somewhat offended at the practitioner, for he considered himself a good Christian. But he thought of what the practitioner had told and he came back later and said that he had found the practitioner was correct. He had really found a faith in God. This faith occupied all his mind so that he had no opportunity to think of his ills.

Judge Greene told of an experience that he had on a street car, which he said illustrated what could be done to those about us if we take the right mental attitude. The judge was riding on a car in the city. It was crowded and the conductor was in an exceedingly bad humor. The judge did not know where the street was at which he was to get off. He was almost afraid to ask the conductor, since he was in such a bad humor.

Accordingly the judge sat on the car and put everything from his mind that was along the line of an irritated street car conductor. At last the conductor came through the car and the judge asked him if he would call the street when he came to it. The conductor answered "Yes" in a gruff way and went on. The judge did not know whether he had accomplished much or not but kept on thinking along the same line that he had before. Pretty soon the car stopped and he heard the conductor saying to people on the platform "Please let me through. There is a man in here who wants to get off at this street."

The judge felt that by taking the attitude of mind that he did that he had won a victory and accomplished the thing that he had set out to bring about.

Owing to the rain last night the crowd at the theater was not a very large one.

YESTERDAY AFTERNOON CLOSED FIVE HOT DAYS

Reading 90 to 98 at High Point for Five Days—Rainfall 1.47 Inches

When the mercury started down from the 97 mark, the highest point reached yesterday afternoon, it marked the beginning of relief from five of perhaps the hottest consecutive September days that Maryville has ever seen and also the five hottest consecutive days of the summer. Beginning Sunday the temperature was ninety or above each day at the highest point.

The high readings for the six days were as follows: Sunday 91, Tuesday 90, Wednesday 98, Thursday 98, Friday 97.

The rainfall yesterday afternoon, last night and this morning was 1.47 inches, according to J. R. Brink, official weather recorder. The rain was much needed, as the pastures were growing dry and the ground was hard, making plowing for wheat difficult.

SPEND NIGHT AT THE I. O. O. F. HALL

DELEGATES AND VISITORS COULD NOT GO HOME

MEETING LAST NIGHT

No Election of Officers Was Held—April Meeting to Be at Savannah

The rain last night caused a number of the members of the I. O. O. F. and Rebekah lodges, who were here yesterday to attend the Northwest Missouri Association to spend the night in the I. O. O. F. Hall. They had come here in motor cars and expected to return to their homes after the meeting of the orders last night. It is said that there were well on to 100 still at the lodge rooms at 6 o'clock this morning and everyone did not get out until about 7:30 o'clock.

When the rain came late yesterday afternoon some of the delegates and visitors started home at once and others left later in the evening on the trains. But one party did not get here until about 11 o'clock, according to Frank Orcutt.

Each of the orders held their meetings and put on their work last night. The Odd Fellows gave the initiatory and the first and second degrees and the Rebekahs put on their Rebekah degree.

No election was held as the officers were elected last April, when the association was held at Pattonsburg, and their term of office is for a year.

Some resolutions were passed to be presented to the grand lodge.

The meeting next April will be held at Savannah.

A BLIND BOGEY CONTEST AT THE COUNTRY CLUB

Will Start Tomorrow and Continue Until Tuesday—Prizes to the Winners.

A Blind Bogey Contest has been arranged for the members of the Maryville Country Club by Ray Harvey, golf instructor. This contest is one in which the bogey is not known but it will be somewhere between eighty-five and ninety-five. The contest started this afternoon and will continue until Tuesday. This will give some of the members who are occupied through the week a chance to play on Sunday.

To play in the Blind Bogey Contest a player must register with Mr. Harvey. When he registers he selects his handicap. This handicap is selected so that it will make his score come out somewhere between 85 and 95. When the players register Mr. Harvey will explain the rules of the contest.

All of the members of the Country Club are urged to play in this contest. There will be two prizes, one for the winning man and one for the lady who makes the best score.

This is the first affair of this kind which has been "pulled off" by the Country Club and it is a novel idea.

A player will be allowed to play but once to count on the contest.

The prizes that will be given have not been announced, but will be within the next day or so, according to F. C. Miller, who is taking a part in the preparations for the contest.

William Andrews will leave Monday for a two weeks' visit in Red Oak, Ia., and in Omaha, Neb. He will visit with his sister, Mrs James Kokos in Red Oak and with relatives in Omaha.

The International Brotherhood of Electrical workers had asked a temporary restraining order on Thursday. THE COUNTY FAIRS

September sees one of America's most typical institutions at its best, the cattle show and the county fair, though they are not so plentiful as they once were.

While held for the purpose of promoting better farm production these shows serve primarily as a general picnic and frolic occasion. Merriment runs high as the barkers shout, and the crowd yells for the winner of the trotting race.

Uncle Reuben, who use dto come down to these shows in all the glory of his bushy whiskers, has bought a safety razor, and has acquired collars and store clothes, and can handicap many of his city brothers on good looks. The rural maidens are there with up-to-date finery and are able to achieve good color without drug store assistance. The country boys are not as bashful as they used to be. And their prize winning pigs and corn suggest that they are climbing the path to success. It is a good honest looking crowd, and they earned their holiday by hard work and they enjoy it.

ENCOURAGING FOOD PRODUCTION

A big advance movement was made when the old time cattle shows were made the opportunity for spreading ideas of scientific food production. Formerly agricultural colleges were considered theoretical affairs by the farmers, and the advice of spectacled professors was looked upon with some contempt. Then the "aggie" colleges began to set up tents at cattle shows and would show one pile of ears of corn grown with scientific treatment, and one pile without. The most hard shelled farmer could see the difference with those shrewd eyes of his. He began to prick up his ears and slide into the tent where these professors were lecturing. Thus ideas of better farming have spread, until the country gets such results as the bumper crops of 1922.

The whistle at the dormitory marks the time at which the men go to work in the morning, the time to quit for lunch, the time to go on again for the afternoon and the time they quit for the day.

Forumettes

Just because you may believe
A thing is so or not so does
Not settle it as people
Once thought the earth flat.

A minister preaches twice a week and gets paid for it. There are a lot of wives in Maryville who preach all the times and do not get paid.

A reckless driver often has wrecks.

You fellows are always longing for the good old days just think how you would like to ride down town in an old buck board.

They don't use the dunce cap in the schools like they did in the old days but that is no reason why some Maryville people should not wear them.

Uncle Abner, the Maryville philosopher, says if you are on the look out for business you will not usually have to worry about the business outlook.

This is the month the poor writer of Forumettes gets the best of his kind and indulgent employer in that September has five pay days.

We were talking to a friend on the corner the other evening when we noted a crowd down the street. "Just look at that silly gaping crowd" our friend said "The idle curiosity of some Maryville people makes me tired. Lets go and see what the fools are looking at."

We will not lose faith in the future of the race until we find the women are chewing tobacco.

Louise, the stenographer, says she believes the world is growing better as you scarcely ever see a celluloid collar or a red necktie on a man these days.

Any Maryville auto owner will tell you he has the best car on earth as long as it runs smoothly and the worst boat in town the minute something goes wrong.

Vagrant Musings.

Warm hearted and hot headed are two different qualities.

Love not only makes the world go round but go crazy as well sometimes judging from the newspaper headlines.

Women have plenty to say about their rights but mighty little about the wrongs of the men.

The tarnish on a man's character looks duller to others than to the man himself.

We suppose the boys at the Maryville fire station should be called hose supporters.

They Who Take Desperate chances.

The man who meets some stranger down a dark alley by appointment and pays for a quart of "genuine old bottled in bond stock."

Maryville men are taking desperate chances every day. Write to the editor of Forumettes and tell him about them.

AGRICULTURE CLASS SEES RESULT OF SOME WORK

Visited Yesterday a Grape Arbor Which It Had Pruned Last Spring

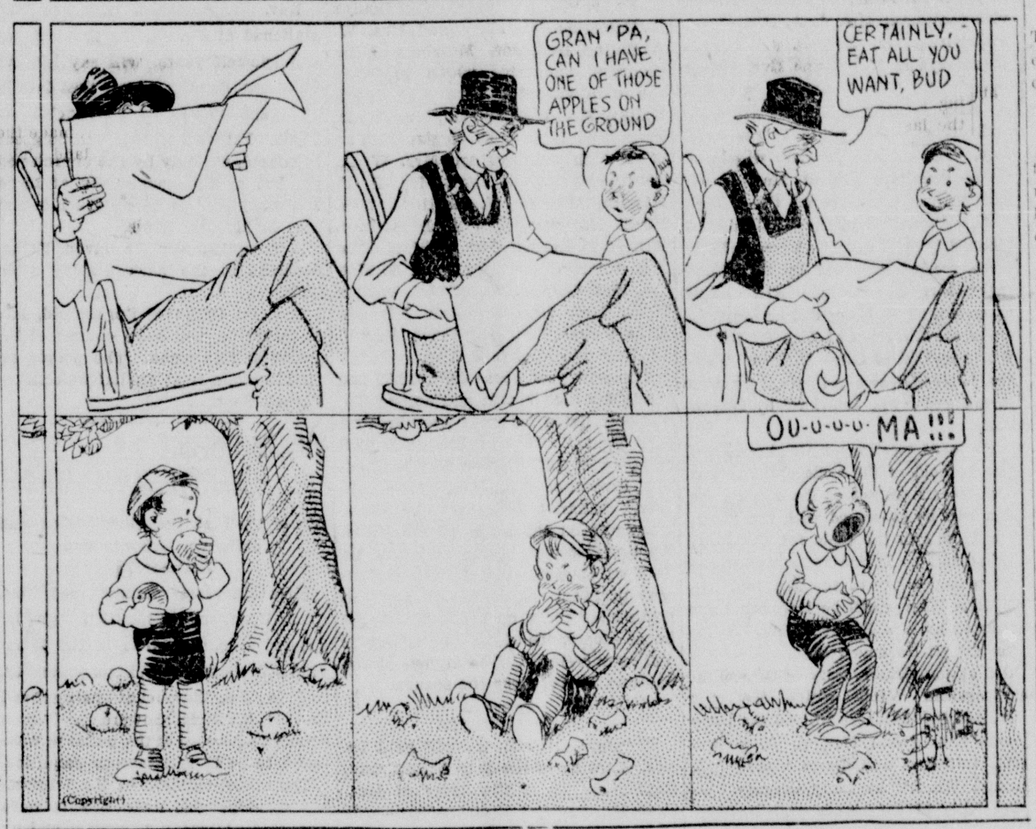

Members of the class in vocational agriculture at the Maryville High School, under H. G. Tilley, saw yesterday at the Electron farm of R. E. Thomas some of the results of work done by the class last spring. During the spring the class went to the Thomas farm and pruned the grapes. While at the farm yesterday looking at the Poland-China herd of Robert Gallagher the members visited the grape arbor again. The vines showed the affect of the pruning. Members of the class say that some of the vines of white grapes are especially fine.

Mr. Thomas has put paper bags over some of the bunches of grapes in order that they may be kept on longer and remain in better shape.

Barnard Bulletin

The Barnard schools are now running on the first lap of their nine months term with the largest enrollment in the high school ever known in Barnard and the usually heavy attendance in the grade rooms. The high school enrollment this year is 78 and two more are expected to enter school within a few days. Of this number just one-half are non-resident pupils. The enrollment of 78 or really 80, for the two are known to be going to enroll exceeds last years enrollment by 8. Two years ago the enrollment was 65 and the two years increase is 15. This is due to the superior equipment and very efficient faculty who have the instruction in charge. The grammar room is in charge of Miss Maude Kibbe and she has 37 enrolled. Mrs. Verdie Daniels has the intermediate room with an enrollment of 30. Miss Velma Adams is teacher of the primary room and has 29 youngsters under her instruction.
